

Proceedings of International Symposium on City Planning 2014

Prospect of Planning for Megacity Region

**November, 6th-8th 2014
Hanoi, Vietnam**

Contents

■ Oral Presentation

Session 1: Socio-economical Planning and Development

A Study on the Planning Factors and Residents Satisfaction of Urban Regeneration in Medium Cities

Ahn Jung-Geun, Jeong Hyun-Chang, Lee, Jae-Hee

The Informal area Management in Slum Settlement: Case study in Cikini Kramat area, Jakarta, Indonesia

Joko Adiarto, Akiko Okabe & Evawani Ellisa

Knowledge-intensive manufacturing-based Global city Formation: The case of Suzhou, China

Hyung Min Kim

Depopulating Mega-city and Urban Problems of Metropolitan Fringe:

A Case Study of Iga City, Mie Prefecture, Japan

Fumihiko Seta

Gender Wage Differentials in Knowledge-Based Industry in the Capital Region of Korea

Chanyong Kim, Up Lim & So Hyeon Lee

An Empirical Analysis on International Dynamic Co-movement and Spillover Effect of Real Estate Market:
Focusing on the Housing Prices

Peng WANG & Myounggu KANG

A Study on Patterns of Internal Migrations in Japan From the Viewpoint of Super Long-run

Changes of Industrial Structures

Ryo Fukuda, Fumihiko Seta and Tetsuo Kidokoro

A Synthetic Analysis of Biophysical Vulnerability and Social Vulnerability:

A Case Study of Taitung County, Taiwan

Yung-Jaan Lee, Chuan-Ming Tung, Ching-Yi Wu, Piin-Rong Lee, Chiao-Chi Chen

A Study on Restructuring of Traditional Market Functions for Revitalization of Small Towns

Lee Tae-gon, Park Eun-A & Ahn Jae-rak

The Perception of Identity through the street Nomenclature of Nairobi CBD

Melissa Wanjiru & Matsubara Kosuke

An Analysis of the Relationship between the Pedestrian Environments and the Fear of Crime
in Lower-Density Housing Areas

Gi-Ho Sung, Tae-Hyun Kim, Jea-Sun Lee & Hong-Kyu Kim

The Effects of Special Districts for Urban Regeneration aiming at Sustainable Growth of Matured Megacity
Regions in Japan

Tomoki Kitazaki & Tomokazu Arita

The Association between the Built Environment and Social Capital in Seoul, Korea

Sugie Lee, Chi-Sun Yoo, Jae-Hyun Ha & Jee-Min Seo

School Travel Companions and Peer Relationships of Children

Jen-Jia Lin, Chung-Ting Cheng

The Effect of Public Housing Supply on the Private Housing Supply

Kim Ho Kee

Metropolitan Region in a Dynamic Economic Large- National / Regional Development Morphology largest City in Vietnam

Do Tu Lan

Session 2: Spatial Organization of the Territory

The Necessity of Transforming from Traditional Dictating Planning to Strategic Structure Planning

Pham Thi Hue Linh

Employment Distribution Change and Migration in Seoul Metropolitan Area

Jin-Yoo Kim

Methodological Considerations of Regional Planning by a Unit in Rural Areas

—through a Case Study in Underpopulated Regions, Gokayama in Japan

Tomoko Mori

Segmentation of Retail Markets in Seoul:

Distribution of Specialized and Brand Shops and Market Volatility and Growth

Lee Jeong Ran & Choi Mack Joong

Logical Structure of Explaining the Nature of City Planning: A Theoretical Speculation

Shun-ichi J. Watanabe

A Study on the Spatial Distribution Features of Single Elderly Households in Seoul by Life Cycle:

focused on Seoul metropolitan area

Yoo Yejin, Kim Kabsung & Han Jihye

Relation between Mixed Land use and Living Environment:

Deference of Evaluation by Degree of Mixed use and Different History

Takahiro Suezawa, Tatsuya Kishimoto & Yoko Hatori

Do more Educated Workers Migrate more?

Ye Seul Choi, Up Lim & Minyoung Kim

A System to Explore Alternative Plans for Demolition of Historic Buildings

—The case of the Demolition Delay Ordinance of Cambridge, MA, U.S

Nao Harashima & Atsuyuki Okazaki

Needs and Demands for Zero-Energy Housing District: A Case of Korean Households

Jun-Hyung Kim, Sang-Young Lee & Dong-Ha Park

Transition of Buildings and Process of Area Regeneration in “Kagai”

—A Case Study of Naka-cho in Hachioji City, Tokyo

Aritomo Kubo & Atsuyuki Okazaki

Modeling of Ventilation Paths for Urban Block Scale by Spatial Analysis

Chun-Ming Hsieh, Hsin-Chiao Huang, Feng-Tyan Lin

Urban Spatial Specialization: A Case in Taiwan's Service Industry

Tzen-Ying Jenny Ling, Kuei Mei Huang

Comparative Analysis of Measures for Land use Mix

Sunyong Eom & Tsutomu Suzuki

Urban Spatial Segregation and Construction of Ethnic Boundaries in a border city between Thailand and Myanmar

Yuseok Han & Jeewook Hwang

Spatial Network Analysis of the Creative Industry in Osaka City Using the Social Network Analysis with Big Data

Junghoon LEE & Atsuko KAGA

Session 3: Transportation and Technical Infrastructure

The Application of the Cost Distance Measures in the Process of Designating the Zone Boundaries in the Case of Korean DIF zoning

Sung Hoon Kim, Seok Hoon Jeon & Nae-Young Choei

Service Delivered on New Transit System from Users Viewpoint

(case study: TransJogja and TransMusi-Indonesia)

Aleksander Purba, Fumihiko Nakamura & Shinji Tanaka

Size, Shape and Dispersion: Urban form Evolution in Saigon River Basin and its impacts on Hydrologic Performance from 1990 to 2010 (13A)

Dung Do NGUYEN

Pedestrian Walking Satisfaction and Street-level Environmental Factors in Seoul, Korea

Yoon Sung Lee, Sugie Lee & Changkwan Lee

Study on the Introduction of LRT System in Asian Cities

Yuichi Aida, Masaharu Oosawa & Takayuki Kishii

Compromising the Conflicting Views on Zoning as Anti-Congestion Policies

Hyok-Joo Rhee

Measurement and Evaluation of Mobility for Daily Travel by Residents in Housing Development in Suburban Area Using Capability Approach

Kazuki Terayama & Michiyasu Odani

Identifying Thresholds of Built Environment Characteristics for Walkable Communities:

Empirical evidences from Seoul Metropolitan Area

Hyunjoo Eom & Gi-Hyoung Cho

Route Choice Associated with the Provision of Public Transportation Information

Masatoshi Kisaka, Yoongho Ahn & Horoshi Tsukaguchi

A Study of Indicative Methodology That Examines Regional Equity
in the Distribution of Public Transportation Routes

Seongman Jang & Seung-Il Lee

Exploring the Evaluation Indicators for Developing Green Infrastructure in Rural Areas

Jing Chzi Hsieh, Ren-Ji Lai

Time-series Monitoring of Area Characteristics Using Mass Person Flow Data by Mobile phone GPS Data
—Case Study in Greater Tokyo Region

Yuki Akiyama & Ryosuke Shibasaki

Monorails in the Development of the Public Transport System in Urban Regional Construction Planning
in Vietnam

Bach Ngoc Tùng

The Influence of TOD-5D Characteristics on MRT Usage: A Case Study of Taipei City

Liu, Jen Hua, Pai, Jen Te

Technical Infrastructure in Large Metropolitan Areas: Challenge in the Development Process

Nguyen Hong Tien

Session 4: Environment, Sustainable Development and Resource Management

Land Use Change and Flood Damage —Case Study of 2011 Thailand Flood

Charoenbundit Parinya & Choi Mack Joong

From Regional Planning towards Sustainable Development

—A Case Study from the Asian perspective: Ho Chi Minh City Region, Viet Nam

NGO Quang Hung

Structure and Achievements of a Program to Assist Formation of Intermediary Organizations on Historic
Preservation: A Case of the Statewide and Local Partners Program in the U.S

Ryusuke Saito, Saisuke Matsui & Atsuyuki Okazaki

The Impacts of Disaster Prevention and Safety Plan Quality on Disaster Losses in Local Municipalities,
Korea

Dong Keun Yoon, Junsung Park & Jung Eun Kang

Present Development of Planning Education in Taiwan

—Case Analysis of the Urban Redevelopment Industry in Taipei

Hong-Wei Hsiao, Chien-Yuan Lin, Jen-TePai

How to Reserve the Green Space in the Megacity Region Based on the Greenery Area System

Ying Zhao & Noriko Akita

Environmental Justice and Flood Hazards: National Capital Area vs. Local Areas in South Korea

Park Han-nah & Song Jae-min

Study on Change in Scenic Views near High-rise Buildings:

Simulation Analyses of the Scenic Views from the Primary Scenic Viewpoints in Kobe City, Japan

Naoko Kuriyama, Koichi Miwa & Shingo Suekane

An Empirical Analysis on the Influence of the Subway Ridership on Energy Consumption of Buildings in the Subway Station Areas

Kim Kijung, An Youngsoo & Go Joo Yeon

Conferring the Sustainable Develop Model of Cultural Life Circuit through the Daily Life Path Cognition Analysis—A Case Study of Taipei City, Taiwan

B.C. Wang, M.P.Chen

Relationship between Demographic Change and Consumption of Residential Building Energy

Jaeone Jung & Changhyo Yi

Impact Assessment of Urbanization on the Urban Thermal and Wind Environments

Masato Miyata, Kaede Watanabe and Satoru Iizuka

Residential Distance and Rice Terrace Restoration: A Perspective of Environmental Communication

Li-Pei Peng, Mei-Yin Kuan

Urban Energy Systems and Their Increasing Importance in Global Long-term Energy Strategies

Miho Kamei

Two Historical Eco-cosmologies – Ferrara, Italia and Thua Thien Hue, Vietnam

—A study on Protection Tools for World Heritage Cultural Sites with Strong Ecological

Alba Victoria Zamarbide Urdaniz

Performance of Practices for Linked Parks on New Sub-Center Development Axis in Past Decade in Kyoto Southern District

Tomohiro Kinoshita, Tohru Morioka & Taira Ozaki

Integration of Climate Change Adaptation into Urban and Coastal Zone Planning in Vietnam: Implications for Developing Countries

Luu Duc Cuong

Session 5: Regional Planning Education and Planning Practice

A Study on the Change in Determining Factors of Job-Housing Balancing Choice in the Seoul Metropolitan Area

Choi Seungbee, Kim Kabsung, Jung MeenChel & Kim Sungwhan

A Study on Living Environment in Flood-prone Village, the Traditional Urban Area of Hue, Vietnam:

A Case of Kim Long Ward, Periphery of the Hue-Citadel

Takahiro Izumi, Naoaki Furukawa & Shigeru Satoh

Short-Term Training-Solutions to Capacity Building for Local Government and Residential Communities During Urban Development Control

Do Hau

A Comparative Analysis on the Difference in Perception of Living Street Planning Elements among Resident Groups using Post-Occupancy Evaluation

Seong-Won Choi, Hee-Kang Shin, Ji-Won Moon & Hong-Kyu Kim

The Characteristics of Land Readjustment Systems in Japan, Thailand, and Mongolia and an Evaluation of the Applicability to Developing Countries

Minoru Matsui and Chikashi Deguchi

Geographic Information System for Urban and Regional Planning in Viet Nam

Dương Quốc Nghi

An Approach to Risk Management for Land Readjustment Projects Implemented by a Cooperative Association

Takanori Sata, Chikashi Deguchi, Tetsunobu Yoshitake & Makoto Asano

Community Consultation Methods for Urban and Regional Planning in Vietnam

Tạ Quỳnh Hoa

Urban Regeneration of Filled Area Enhancing the Function of City Center the Case of Lyon Part-Dieu Project in France

Kyoko YAMAGA

Study of Performance Assessment in Urban Renewal Project Based on DEA Method —Case of Taipei City

Kuan-Hua Huang

Influence of Citizen's Voice and City Planning to Private Company's Plan:

Case of Post "Mukogaoka-Yuen Amusement Park" planning

Namiko Minai

Across Border Urban Integration Tendency After Cold War:

Survey the Planning Strategy of Kinmen in the Next Decade

Shing-Yen Yuan, Ti-chia Wu

Issues Surrounding Children's Safety in Relocation Projects in the Historical Old Quarters of Hue city, Central Vietnam

Miki Yoshizumi & Hirohide Kobayashi

Culture-led Inclusive Governance and City Planning: The Case of the Philippines

MORALES, Mark Anthony Mateo

A Comparative Study on Content Revisions of Master Plans between Hanoi City and Ho Chi Minh City When Urban Planning Law was Promulgated in 2009

Lam Nguyen, Toshiyuki Kaneda, Tomohiko Misaka

Session 6: Managing Regional Development

Actual Situation and Its problems of Post-disaster Reconstruction Process in "shrinking cities":

Emergence of Ultra-low-densely Used Land in the Whole Region

Michio Ubaura

Privatization Policy of Land and Housing in North Korea after Unification

Hyun-Soo Kim, Mack-Joong CHOI, Yeasung Kim & Eun Sook Park

Evaluation of Good Governance of Regeneration Project in Pakistan

—Case Study of Walled City Gegeneration Project in Lahore

Sarmad Hashmi & Mihoko Matsuyuki

Property Market and the Development of Vietnamese Metropolis:

Spatial Distribution Analysis of Housing Projects in Ho Chi Minh City

Pham Thai Son

The Application of Multi-objective Optimization Model to Urban Land Development and Management

Wann-Ming Wey

‘Build Back Better’ after Hurricane Yolanda:

Initial Planning Dialogue on Land Use and Risk after Hurricane of November 2013

Kanako Iuchi

Impacts of Transportation Infrastructure on the Growth of Bangkok Mega-city Region

Janekan Janekankit & Myungje Woo

Variation of the Elderly Population without Public Transportation Access

—the Case Study on the Greater Tokyo region

Toshinori Ariga & Keisuke Matsushashi

Community-based Planning for Disaster Preparedness:

A Case Study after the East Bay Hills Firestorm, California

Chiho Ochiai

The Comparative Measurements of the Residential Distribution by the Genetic Algorithm Model:

The Case of Goyang City of Korea

Sung Hoon Kim, Ki-Beom Huh & Nae-Young Choi

Evolutional Housing in the Last Years of French Algiers

Kosuke Matsubara

Mainstreaming Climate Change Considerations into Regional Development Planning in Viet Nam

Nguyễn Quang

Rehabilitation Methods and Revitalization Strategies in the Old Inner-City Areas of Rapid Growth Cities in Asia – A Comparison of Four Cities : Penang, Hanoi, Shanghai, and Tokyo

Teh Yee Sing & Sasaki Yoh

Exploring the Determinants of Leisure Activity for Baby Boomer in Developing Country—Case of the SMA

Jang, Yoon-Jeung

Tsunami Refuge Facility Choice Model for Visitors in Beach

Takashi Yamada, Kazunori Akiyama & Tatsuya Kishimoto

A Study on Characteristics of Underutilized and Unutilized Land in City Center of Provincial City

—The Case Study in the City Center of Ishinomaki after the Disaster

Tomohiro KARIYA & Michio UBAURA

■Poster Presentation

Urban Form for Sustainable Transportation

Kim KyungTae & Song Jae Min

Examining morphological variation of green space effects for Urban Heat Island mitigation:

Using Landsat 8 and MODIS data of Ulsan, Korea

Jong-Hwa Park & Gi Hyok Cho

Assessment of Challenge in Urban Conservation using FAHP Method

—A Case of the Wenming Historic Block in Kunming, China

Chen Yingying & Hwang Jeewook

Analysis on Pedestrian Volume in Seoul Central Area

Daeyoung Kwon & Brian H.S. Kim

Kote-e Plaster Art in Ajimu, Oita, Japan: The Difference between Meiji Kote-e and Heisei Kote-e

Yoshihiro KAMETANI

Planning Tasks of Station Squares in Metropolitan Areas in Japan

—Based on transition and actual conditions of the planning standard for station squares in Japan

Shoichi KOTAKI, Junichi TAKAYAMA, Shoichiro NAKAYAMA & Masahiro RACHI

Factors Affecting the Decision to Preserve Building Remains at an Earthquake Site:

A Case Study of the Submerged Houses in Kogomo Community, Japan

Ryoga ISHIHARA

Research on the Differences of Pedestrians' Stay between Ground Space and Underground Space

—Taking the Examples of Umeda District of Osaka

Yu Wei

Evaluation of Tokyo's City Planning in 1973-2000: Relationship of Urban Space and Floor Area Ratio That Focuses on Original Land Use of Tokyo with Zoning Regulation

Junji AIKI & Shin AIBA

Study on the Probability of Tokyo Area Residents to Participate in Green Space Conservation Activities Based on Willingness to Work

Yui TAKASE, Katsunori FURUYA & Shoko SAKURABA

A Case Report of Improve Bus Networks of the Kyoto City as a Means of Transportation for a Large City

—A Report on the Possibility of Restructuring Bus Networks Based on Scientific Analyses

Keisuke SHIOJI

Study on the Effectiveness of Educational Activities Using Public Transit to Ease Urban Traffic Problems

Nobu TSUCHIZAKI, Nobuhiko MATSUMURA & Atsuko KAGA

Population Distributions of Mature Mega Regions: A Case Study of Tokyo and Osaka, Japan

Hiroki Ogawa & Masuro Urayama

A Study on the Appropriate Level of Development Density on Large-Scale Urban Development in Seoul, Korea —Focusing on the Development of Railway Stations and Surrounding Areas

ByoungJin Kim, Satoshi Toi, Chiaki Matsunaga & Baatarzorig Mandkhai

Proposal of Board Game to Collect and Share the Information about Lifestyle Preferences of Residents
—Experiments of "Lifestyle Reversi" Game at Mito City in Japan

Ryo SATO, Sae KONDO, Hiroki ITO & Mark Anthony M. MORALES

The Issue and New Movement of Urban Planning System in Tokyo Metropolitan Area

Jangshik Yoon & Minoru Takamizawa

A Public-Private Partnership Model for Urban Development —Miyako City's "Smart Community" Project

Masao Yoshimura

The Research on the Japanese Governmental Program to Dispatch Urban Young People to Rural Areas in
Terms of Stability

Kunihiko Matsumoto, Naoto Shinohara & Masanori Sawaki

A study on Commuters' Travel Intention in Motorcycle-based Context:

A Case of Ho Chi Minh City, Vietnam

Le Quan HOANG & Toshiyuki OKAMURA

Comparison of Observed Trip Patterns: Relation of Number of Trips and Purposes of Trips in Tokyo and in
Matsuyama City Regional Area

Hiroshi Ohba & Tatsuya Kishimoto

Tsunami Refuge Facility Choice Model for Residents in Coast Area

Kazunori AKIYAMA, Takashi YAMADA & Tatsuya KISHIMOTO

Alleys as a Part of Living Space: A Case Study of Zoshigaya

Hanako SENSUI & Namiko MINAI

An Investigation of the Actual Conditions of a Chinese Shopping District

—A Case of Yuelu Campus City, Changsha

Koki Ono & Kosuke Matsubara

Community Regeneration through Reconstitution of Place Memory:

A Case Study of Tateyama Ecomuseum in Japan

Ilji CHEONG

Study of Estimate Human Demographic Attributes Using Person Flow Datasets and Apply It for GPS Log
Data

Takahiro NISHIMURA, Yuki AKIYAMA, Ryosuke SHIBASAKI & Yoshihide SEKIMOTO

Relation between Mixed Building Use and Living Environment:

Difference of Evaluation by Degree of Mixed Use

Yoko HATORI, Takahiro SUEZAWA & Tatsuya KISHIMOTO

A Simulation Study of Rainwater Infiltration Function of Urban Green Spaces for Pluvial Flood Risk
Reduction in Tokyo Metropolitan Area

Hiroaki YAMTO, Akiko IIDA, Seiji HAYASHI & Mikiko ISHIKAWA
